

RGK5 & RGK6 Connectors

Accredited To EN362

Material: Steel

Gate Opening 55mm

Size : 235mm x 130mm

Closure Type Twist Lock

MBS 35kn

Weight:751g

Features: The large gate opening of the RGK 5, make it ideal for use in industrial areas. The use of this karabiner often negates the use of a sling as it can connect directly to steelwork. Often fitted to double lanyards for climbing masts and steel structures. This karabiner is fitted with a twistlock closure.

It also has a removable pin to enable retro fitting to lanyards.

RGK5

Accredited To EN362

Material: Aluminium

Gate Opening 53mm

Size : 235mm x 130mm

MBS 23kn

Closure Type Twist Lock

Weight:348g

Features: The RGK 6 is a lightweight version of the RGK 5. This device can be fitted to fall arrest lanyards, but is normally seen connected to ropes and used with rope grab systems to provide vertical protection. Used throughout the industry as part of a protection system on portable ladders. It also has a removable pin to enable retro fitting to lanyards
